

# MANUAL FOR USE

## Holder for glass plate 36319

Designed for gripping, carrying and mounting glass, mirrors and other sheet materials with a smooth polished surface.

**Attention!** The glass surface must be dry, thoroughly cleaned and degreased, free from dust, grease stains and other contaminants.

**Max. lifting capacity:** 75kg

### **Use:**

1. Pull lever bracket and attach the bracket to clean and smooth the surface of the object to which you want to place the bracket.
2. Lightly press the bracket and tighten lever. This creates a negative pressure under a suction cup and the holder is thus secured.
3. Now you can object to transfer or bracket as a handle.
4. To remove the bracket from the article just unlock the handset.
