

Instructions for use – Hose socket

48085 – 6mm (1/4“)

48086 – 9mm (3/8“)

48087 – 13mm (1/2“)

Characteristics:

Hose socket (A) is used to connect the air pressure hose (C) with quick coupling (B) positioned as the compressor, spray gun, hose, etc.

Application:

According to the inside diameter of the hose, choose the appropriate size of the hose socket.

After inserting the hose socket sufficiently secure (for example hose clamp).
